To whom it may concern

This is to confirm that we worked together with CFIC on the project «Events of Life» directed by CorsoSalani and produced by Film Kairós in the mid of May 2010, during which time they have provided our production with excellent support in the following areas: casting, location scouting and finding the right people for smooth execution of our project in Russia. Their work has been an important factor in our production success. They worked fast and reliably.

I confidently recommend CFIC as a solid and reliable partner, and experts in their field.

Thanks to:

We address **special thanks** to GaliaMarkotenko who was the casting director for the Russian episode of our project shot in Konakovo, Russia. We appreciated Galia's professionalism and organizational skills in preparing the casting in Moscow. The studio was perfect, the casting was thoroughly planned and everything went smoothly. It is especially appreciated her enthusiasm and friendly attitude to the team. We enjoyed her company as well as her interpersonal skills and I would highly recommend Galia to anyone heading to Moscow to work on casting matters.
